

# Natural Science in the **VIRGIN ISLANDS**

**WINTER BREAK** - Clear tropical seas, colorful coral reefs, white sand beaches, mangrove lagoons and island biomes from desert to rain forest. In three weeks, experience the geological, ecological and human factors that cause change in nature. Earn 6 credits for International Field Studies in Natural Science (NSC) or Integrative Studies (ISB 202 + ISB 208 Lab). Get more info or apply for program at <http://studyabroad.isp.msu.edu/programs/virginnat.html> or contact leader John Mugg [muggjohn@msu.edu](mailto:muggjohn@msu.edu)
